

Secret Love Affair

C. Hicks –M. Summers

I've got no cares in the world
Far as the world can see
I've got my sights on this girl
She's got her eyes on me

Nobody knows, it's as secret love affair
Can't keep these feelings inside
But that's where they'll stay
At least for today
Along for this wonderful ride

They never will understand what we have
And it drives them absolutely mad

It's rare an affair that can bring you back to square
But that's this story goes
And I 'm high as the sky
And to keep you wondering why
That's all I'll say that's all I know

Nobody knows, it's as secret love affair
In the perfect disguise
And that's where it stays
At least for the coming days
And for the sake of being alive

They never will understand what we have
And it drives them absolutely mad
